

SUV / LIGHT TRUCK

Discoverer H/T Plus

Sport Truck

**STANDARD LIMITED WARRANTY
HIGHWAY DESIGN
T-RATED**

The Discoverer H/T Plus is an extension of Cooper's Discoverer H/T SUV / light truck touring line that features sport truck and original equipment sizing in a non-directional platform. It provides an excellent replacement for the 20-inch original equipment fitments on full-size pickups and SUVs as well as "plus fitments" for drivers seeking to upgrade the looks and handling of their vehicles.

Fitments:

Dakota, half-ton pick-ups, Harley Ford, Plus Fitments

LATERALLY BIASED SHOULDER ELEMENTS

The shoulder element design effectively conducts water evacuation away from the contact area while combating irregular wear (heel and toe wear).

OPTIMIZED PITCH SEQUENCE BY SIZE

The Discoverer H/T Plus varies the number of shoulder elements based on tire size, which reduces noise frequency, allowing a quiet ride.

TAPERED TREAD

This design feature puts deep tread in the center and slightly shallower tread in the shoulders. This puts more rubber down in the fastest wearing part of the tire, the center. The result is less weight and improved wet handling.

RIM PROTECTOR

A rubber rim protector extends beyond the rim flange and decreases the chance of rim damage that can occur if a tire/wheel assembly scuffs a curb.

OPTIMIZED TIRE PROFILE

The slightly rounded mold profile of the Discoverer H/T Plus balances wet traction and long tread life.

ALL-WEATHER TREAD

"See-through" grooves, wide, lateral traction slots and high sipe density provide excellent all-weather performance.

CENTRAL CHANNEL GROOVES SUPPORTED BY TWO, WIDE CIRCUMFERENTIAL GROOVES

Because contact pressure is greatest at the center of the footprint, it is important to evacuate water from this area efficiently to avoid hydroplaning. This is especially important in tires with wide treads, like sport truck sizes. The central channel grooves move water from the center of the tread to the two outer circumferential grooves for evacuation.

ALWAYS CONSULT AND FOLLOW THE VEHICLE MANUFACTURERS' REPLACEMENT TIRE RECOMMENDATIONS AND WARNINGS. Use the information on the vehicle placard and vehicle owner's manual to identify original equipment air pressure, tire size, speed rating and load capacity. Cooper Tire reserves the right to change and improve construction, materials or specifications without notice or obligation. Contact your Cooper dealer or Cooper Tire for current information.

Visit cooperworld.net for up-to-date spec information.
